

Purpose

For children in foster care, loss and trauma are substantial and uncertainty is real.
Can our communities change the status quo for these children?

Our Mission

To improve the lives of children as they struggle in foster care.

Our Approach

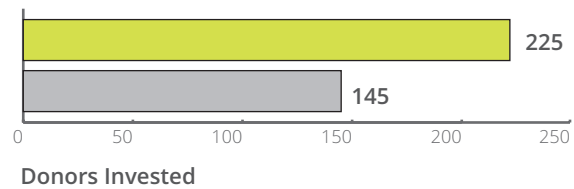

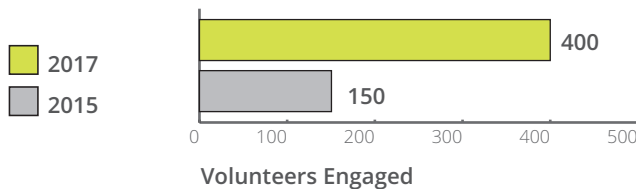

Define problems, inspire others, deliver solutions.

Our Core Values

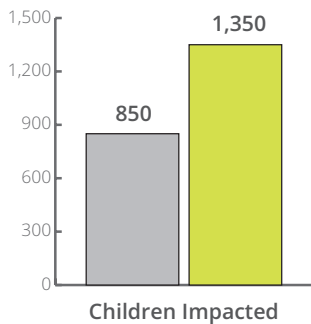

- **Dignity:** children in foster care need to know they matter.
- **Relationship:** healthy relationships are key to long term well-being.
- **Community:** reform is possible when caring individuals come together.

Impact

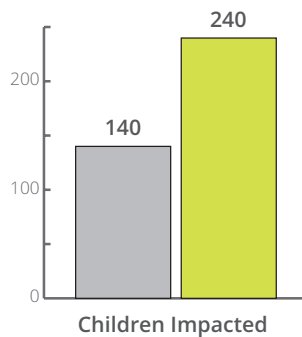

At FGI, we are with the children at every step in their journey through foster care. With our growing network of partners, donors, and volunteers, we restore a child's sense of worth, build positive relationships, and develop an impressive community response.
