

Change the life of a child.

What's it like to be in Foster Care?

It was scary. I went to live with a family I didn't know. They were nice to me, but I missed my mom like crazy. I felt like it was just me, alone, wondering "Why?"

In the US, there are 430,000 children in foster care. Children who have been removed from their homes experience trauma, anxiety, and loss.

How do we help?

Fostering Great Ideas provides innovative solutions that positively change outcomes for children. We partner with individuals, communities, corporations, and child welfare systems to meet the needs of children at every point in their journey.
