

# Ambassador Program

Children need to know they matter, that relationships are key to their healing, and that communities can respond to their needs. Our Ambassadors lead the way!

Ambassadors are representatives of Fostering Great Ideas to the greater community. Ambassadors learn about our work, the needs of children in foster care, and the multiple ways to respond.

Our Ambassador program is a dynamic way we engage individual volunteers, corporations, civic and faith-based partners, and state-wide changemakers.

To become an Ambassador, you will complete one or more activities in each area of **Learn**, **Volunteer**, and **Connect** (see the other side for these options). Every activity earns you Ambassador points, which you can redeem for swag or fun experiences along the way.
